

MEDICARE'S HOME HEALTH PAYMENT GUIDELINES

According to Medicare's Home Health Payment Guidelines, if you have had any type of home health services, the home health episode must be officially closed before beginning physical therapy or our services will not be covered.

If you have any type of home health services while you are in physical therapy, Medicare will not pay for our services. It is your responsibility to notify us of any previous, current or potential home health episodes, or you will be liable for payment.

I understand if I have had a home health episode and it has not been officially closed, and if I have **any type** of home health while I am having out-patient physical therapy services, I am financially liable to Pitman Creek Physical Therapy for payment of physical therapy services rendered.
